Professional Summary

I am a dedicated Full-Stack Software Engineer with a strong foundation in web and mobile application development. I hold an Advanced Diploma in Computing from NACIT and have hands-on experience building scalable, secure, and user-centered applications. I am highly adaptable, detail-oriented, and thrive in fast-paced startup and enterprise environments.

Technical Skills

Frontend: React.js, React Native, Tailwind CSS, Framer Motion

Backend: PHP, C#, Firebase, Supabase

Mobile: Flutter, React Native

Databases: MySQL, Firebase, Supabase

Tools & Practices: Git, REST APIs, Authentication, Role-Based Access Control

Professional Strengths

- Strong problem-solving and analytical skills
- Ownership mindset with attention to detail
- Ability to work independently and in teams
- Experience translating business requirements into technical solutions

Career Objective

To contribute as a Full-Stack Software Engineer in a growth-oriented organization where I can leverage my skills to build impactful digital solutions while continuously learning and evolving.
